## Why choose the AVC-SB1 soundbar from Avacor?

When choosing a flat panel or interactive whiteboard for your classroom or meeting room, you want to ensure that you receive the best possible audio experience. With its sleek design and a vast array of connectivity including Bluetooth and HDMI, the Avacor AVC-SB1 offers excellent value for money and delivers the very best in high definition audio. A must for any flat panel or whiteboard installation.

### Technical features

Key features of the AVC-SB1 include analogue input, two HDMI inputs and Bluetooth aptX<sup>™</sup> input. The Bluetooth aptX<sup>™</sup> functionality enables audio to be streamed to the soundbar from smartphones and mobile devices. The soundbar also has two HDMI inputs and one HDMI output which features Audio Return Channel (ARC), which means it can also function as an input.

With two built-in Ultra-Bass passive radiators, two bass drivers and two full range drivers, there is no need for a separate subwoofer whilst the 3 year warranty ensures complete peace of mind.

**3 year RTB warranty as standard**
